

# WeeStep

helps you to measure  
your baby's feet in 3 steps:

**step 1**

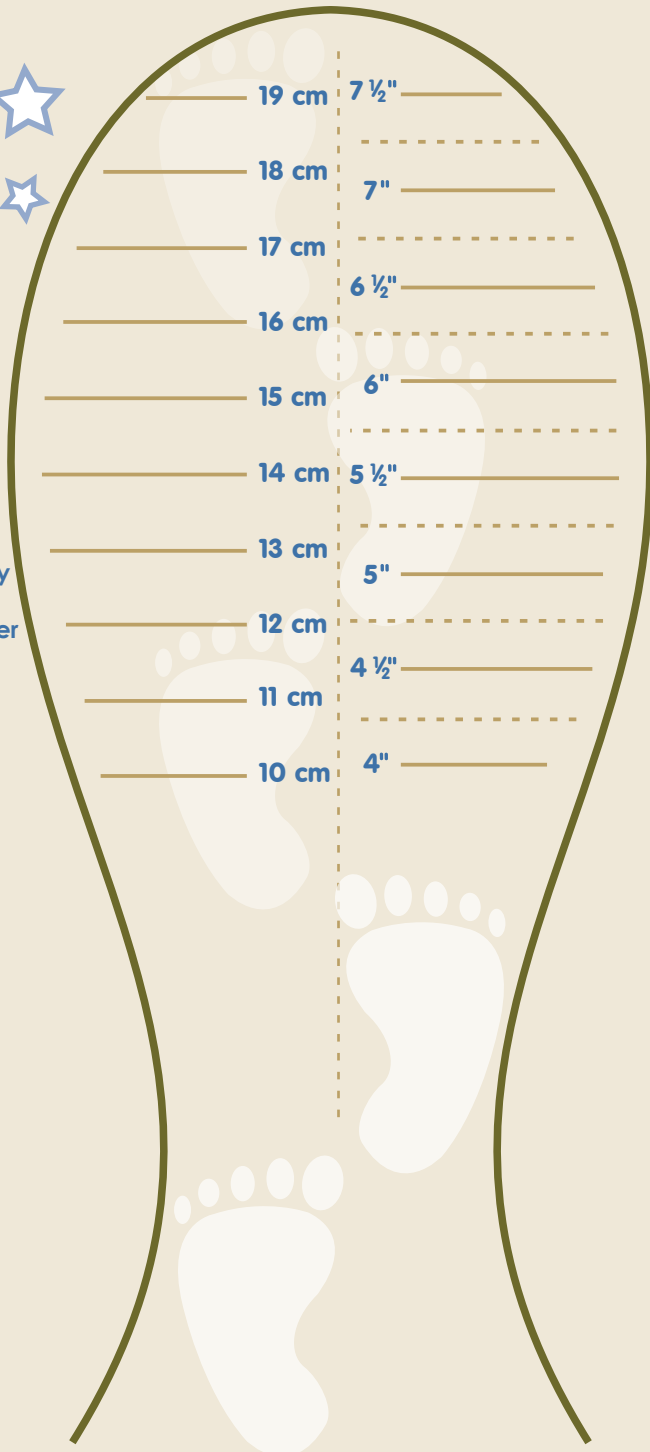

Have a straight edge and a pencil, line up one heel to the dashed line and press down the top of your baby's foot and toe so you can be sure they are flat.

**step 2**

Hold your straight edge where your child's foot ends. After doing that, draw a line and be sure to measure both feet (they may be different).  
Choose the longest foot in order to have the proper measure.

**step 3**

Add 0.5 cm - 1 cm (or 1/4" - 1/2") extra for your baby's comfort and growth. Take note of the new measurement.  
Refer to the Sizing Chart below and select the next size larger than the measurement you took.

WeeStep Size	WeeStep Length (cm)
0 - 6 months	11½ cm
6 - 12 months	12¾ cm
12 - 18 months	14 cm
18 - 24 months	15¼ cm
24 - 36 months	16½ cm
36 - 48 months	17¾ cm

WeeStep Length (inches)	US / UK Sizes
4½"	1-3½ / 0-2
5"	4/5 / 3-4
5½"	5½ - 6½ / 5-6
6"	7-8 / 7-8
6½"	8½ - 10 / 9-10
7"	10½ - 11½ / 10-11

\*Please ensure the measure in portion matches with a ruler
