

NexStep

helps you to measure your toddlers feet in 2 steps.

step 1

Have a straight edge and a pencil, line up one heel to the dashed line and press down the top of your toddler's foot and toe so you can be sure they are flat.

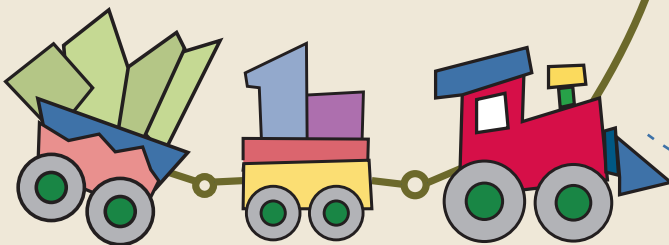

step 2

Hold your straight edge where your child's foot ends. After doing that, draw a line and be sure to measure both feet (they may be different). Choose the longest foot in order to have the proper measure.

Sizes include extra room to grow

NexStep Size Chart

Usa & Can	UK	EUR	JAPAN
7	6 1/2	23 1/2	14
7 1/2	7	24	14 1/2
